

ALSTOM

**Yes!** With your passion and our technology, we can change the future. Transport is more than simply a matter of carrying passengers and freight. At Alstom we have a word for this: Designing Fluidity and it is at the core of everything we do. We combine the most comprehensive range of railway products

and services available: Trains, Infrastructure, Signalling and Services with unmatched international experience. If you're looking for a world of economic, social and environmental changes, stop looking. It is time to act and think ahead.

**Your future at Alstom!**

## ALSTOM TALENT ENERGY

Alstom Talent Energy is a 12-month internship program for Fresh Graduates which included in-company training and a recognized Master course. We incorporate 45 interns with different academic backgrounds in our teams at Alstom and prepare them for their future integration in the labor market. The program represents a great opportunity for participants, who will benefit from a full year learning from excellent professionals in an international work environment while collaborating on significant railways projects.

## PROGRAM STRUCTURE

Alstom, in collaboration with Fundación Universidad-Empresa, offers 45 full-time intern positions at its locations in Madrid and Barcelona.

As a selected candidate you will benefit from an in-house integration program which aims to familiarize you with Alstom's culture and values. During this stage, your assigned tutor will set the specific objectives of your project within Alstom. Those objectives will be periodically reviewed and evaluated at the end of the year through a formal presentation to Alstom Top Management. Throughout the year you will participate in several trainings and meetings with Senior Managers of the Company.

**Yes!** The Railway Industry today is characterized by both a strong and sustained growth across the world. The trends that drive this are well known: environmental challenges, population growth, urbanization and increasing demands for mobility.

With 7,3B€ of sales and around 32,800 employees based in over 60 countries, Alstom develops and markets the most complete range of systems, equipment and services offered today in the railway sector. Today we offer our customers solutions that feature a seamless blend of diverse technologies, ensuring optimal interfaces, along with flexible implementation and real synergy in innovation.

**Your future at Alstom!**
